TECHNICAL SKILLS

- JavaScript
- React
- React Native
- Typescript

SOFT SKILLS

- **Solid, precise and fast work**
My perfectly made project was completed in $\frac{3}{4}$ of the estimated time, then it served as a model during employee training.
- **Creative thinking**
My projects gain attention and winning positions in competitions through unusual ideas.
- **Highly organised and efficient**
The extra job usually went to me. These were both: extinguishing fires in the projects, and whole projects performed after hours.
- **Proactive**
On my own initiative I managed the social media promotion of Furniture Studio at Academy of Fine Art, thanks to which Studio has started several valuable collaborations.
- **Very good coordination**
Through well-performed tasks, I was entrusted with organization of the entire recruitment process for Interior Design course at the Academy of Fine Arts.
